25X1X

25X1X The attachment,

drawn up by the Deutsche Reichsbahn,

lists the planned and actual freight loadings in the DDR for the month of March 1951. The schedule is compiled with reference to Reichsbahn-Direktion and commodity; cars required by the Soviets are also indicated. The figures are based on two-axle freight car loads, the first figure representing planned loadings and the second representing actual loadings.
